# Annual Report/Rapport Annuel

- Water Sampling

lac Gauvreau

- Parent Creek

# Annual Report/Rapport Annuel

## WATER SAMPLING

- H2O DES COLLINES
- LA MUNICIPALITÉ
- THE ASSOCIATION

- Results for Fecal Coliforms (June to August) from 2002 to 2009

## Lac Gauvreau – Fecal Coliform Test Results Summer 2011

### Météo/Weather

12 Jun: Sampled 13-1500hrs. Clear afternoon

### Province of Québec Standards for Swimming (Units: UFC/100ml)

- 0 – 20: Excellent
- 21 – 100: Good
- 101 – 200: Acceptable
- 201 - +: Not recommended

# The Problem Still Exists

- LOCAL ALGAL BLOOMS RECUR ANNUALLY
- TESTS FOR TOTAL PHOSPHATES INDICATES LEVELS WELL ABOVE ‘NORMAL’

# BLOOM AUGUST 2009

# ALGAL BLOOM 2010

# Bottom Line

- In summary:
  - There are no known health concerns, except occasional blue-green algae blooms usually in the Fall
  - There is a real environmental concern with the measured phosphorus concentrations.
  - The Association and the Municipality will continue to sample on a regular basis.

# RUISEAU PARENT

- HISTORY
- STUDY IN 2008
- IMPROVEMENTS
- BUT....

# STUDY REPORT - PARENT CREEK

- June 2008: presented the Parent creek study findings;
  - Cattle access to the creek
  - Shoreline deterioration
  - Lack of vegetation
  - All of the above have likely impact on the lake's water quality; phosphorus, nitrates, fecal coliforms and sediments

- Parent creek study recommendations:

- Communicate findings to stakeholders
  - Pursue water sampling program
  - Inspect septic systems within 300 m of creek
  - Block cattle access to creek
  - Stabilize shoreline and plant trees, shrubs

- What we did;
  - Continued monitoring through sampling
  - Communicated the study's results widely (lake residents, municipality)
  - Met with MDDEP to discuss what can possibly be done
  - Reached out to other organizations (COMGA, CREDDO)

- Our plan has been to remediate the most severely degraded segments of the creek, closest to the lake.
  1. Locate the segments
  2. Hire a consultant to delineate what can and what has to be done
  3. Proceed with the work

# lac Gauvreau

## PREVIOUS SITUATION

lac Gauvreau

## CURRENT VIEW

# RUISSEAU PARENT

- Next steps:
  - Increase requests to MDDEP
  - Municipality to increase surveillance
  - MAPAQ works with farmers
